

Highway 25 Safety and Operational Enhancements

Project Description:

The Highway 25 Safety Project will construct a new concrete median barrier from Hudner Lane to the County line. The project will also consolidate driveways to control vehicle access to the highway.

The project includes shoulder widening, grading, paving, drainage, utility relocation, signing and striping, and a concrete median barrier. The project is approximately 7 miles in length.

Highway 25 at the Railroad Crossing

Project Benefits:

- Provides a concrete barrier between north and southbound lanes at key locations
- Prevents cross centerline accidents
- Improves intersection operations by providing left-turn channelization
- Consolidates private driveways to minimize conflicts

Project Cost:

Environmental:	\$0.3 million
Design:	\$1.8 million
Right-of-way:	\$0.4 million
Construction:	\$10.8 million
Total:	\$13.3 million

Highway 25 at Highway 156

The project is fully funded through construction with City of Hollister Redevelopment Agency and Proposition 1B (State Transportation Improvement Program) funds.

Project Schedule:

Environmental:	Winter 2004
Design:	Summer 2008
Right of way:	Summer 2008
Construction start:	Spring 2009
Open to public:	Spring 2010
